## Procedure for Filing SBRT Unlisted Code Claims with Trailblazer

1. Type **FAX DOC and the date you will fax your operative notes** in Box 19 of the CMS 1500 claims form
2. File this claim electronically
3. On the day after you file your electronic claim, fax your operative notes to Trailblazer using their official cover sheet for your state (please see attached).
4. In your operative notes, you do not need to crosswalk your unlisted code to 61793. What Trailblazer deems most important in order to process your claim is that you fully document your level of participation in SBRT by describing the service you performed and your level of participation in your operative report. You should bill Trailblazer the same amount you billed them when you still were using 61793. The national unadjusted Medicare rate for this code was \$1139.59 in 2008.

Here's the link you can go to should you misplace this information:

<http://www.trailblazerhealth.com/Publications/PDF%20Form/Fax-MailEMCDocForms.pdf>

By following the preceding instructions you should be able to resolve the problems you've had in being reimbursed for the claims you filed in 2008. Dr. Charles Haley, Medical Director at Trailblazer, and his staff are now aware of the problems surgeons have been experiencing in being reimbursed for participating in SBRT procedures.

For the claims you file in 2009, continue to follow steps 1 through 4 above.
